RE: Ducks Unlimited www.ducks.org

At the Washington State Ducks Unlimited Convention (Richland June 24-26, 2005), Paul and Suzanne Sullivan with the Silver Mallard Award, for over \$25,000 of in-kind contributions. (Paul was fishing in Alaska and missed the plaque presentation.) They were also given a special Waterford pitcher and pair of glasses imported from Ireland at the Greenwing Dedication, with 8 of the grand girls in attendance. The Waterford pattern was shamrocks and pineapples, to honor their Irish heritage

Paul and Suzanne have been big supporters of Ducks Unlimited for many years. The conservation efforts of Ducks Unlimited has increased and preserved wetlands and wildlife habitat. The habitat is critical to all types of wildlife, with the focus on waterfowl breeding and resting grounds. Without DU, our migratory bird population might have gone extinct, which would have also eliminated our enjoyment and hunting opportunities.

In the past years the Sullivan's companies have contributed in many ways

1. Aero Outdoors has donated products to assist in DU's fundraising events.
2. Burbank Guides Service has donated guided hunts to events for fundraising.
3. Emerald Farms donated the basalt rocks for the bronze plaques that list the youth names, for the Greenwing Dedication, at Mc Nary Refuge, Burbank, Wa. All 8 of Sullivan's 8 Grand Girls were present! See the pictures on the web at this link. http://www.ducks.org/dupages/pageframe.asp?tab=0&pic_source=GALLERY&categoryID=15
